

Information for Driving Authorisation

Instruction courses for driving authorisation and behaviour in the security area

To drive vehicles in the safety zone, the driver must undergo appropriate driver training, known as a driving briefing on behaviour in the safety zone, which is abbreviated to VFE in German.

Driving permits must be renewed at certain intervals in accordance with the applicable EASA regulations (e.g. ADR.OP.D017).

TRIWO Hahn Airport GmbH would like to draw your attention to the fact that the instruction courses for obtaining the driving permit for the security area of the airport only take place on demand and are subject to a charge.

The following variants are available:

- ➔ **Basic instruction for driving authorisation** (exclusively for driving on the service road)
Duration of instruction approx. 3 hours
- ➔ **Driving authorisation with radio training** (for driving on the ramp, taxiways, etc.)
Duration of instruction approx. 5 hours
- ➔ **Refresher driving authorisation** (only for driving on the service road)
Duration of instruction approx. 1 hour
- ➔ **Refresher driving authorisation with radio training** (for driving on the ramp, taxiways, etc.)
Duration of instruction approx. 2 hours

Interested parties should register early and bindingly with our ID Card Service.

The costs per course will be invoiced in accordance with the applicable service fees of TRIWO Hahn Airport GmbH and are payable regardless of participation.
